Algebra 2 | Math | Khan Academy

This algebra book in our "design" series covers topics found in most first-year algebra programs. The topics are much like those in our Algebra by Design and More Algebra by Design books. However, there is no repetition of exercises. In general the exercises in this new book are at a higher level of difficulty than in the previous algebra books. Click here to download the table of contents in pdf format.

Algebra I Topics by Design - Tessellations

Algebra 2. Algebra 2 is the third math course in high school and will guide you through among other things linear equations, inequalities, graphs, matrices, polynomials and radical expressions, quadratic equations, functions, exponential and logarithmic expressions, sequences and series, probability and trigonometry. This Algebra 2 math course is divided into 13 chapters and each chapter is divided into several lessons.
