By Charles H. Atwood and Kenneth W. Whitten both of the University Georgia, Richard M. Hedges of Texas A&M University, and revised by Kimberly Schurmeier of the University of Georgia. Detailed lecture outlines of all of the text chapters are available to free students from tedious extensive note taking. The outlines enable the students to listen more efficiently because they know that the important ideas and terms are already written down for them.

'Developing Management Skills' teaches students the ten essential skills all managers should possess in order to be successful. These skills are grouped into personal skills, interpersonal skills and group skills, so students can see how certain skills are related to others.

Cover crops slow erosion, improve soil, smother weeds, enhance nutrient and moisture availability, help control many pests and bring a host of other benefits to your farm. At the same time, they can reduce costs, increase profits and even create new sources of income. You'll reap dividends on your cover crop investments for years, since their benefits accumulate over the long term. This book will help you find which ones are right for you. Captures farmer and other research results from the past ten years. The authors verified the info. from the 2nd ed., added new results and updated farmer profiles and research data, and added 2 chap. Includes maps and charts, detailed narratives about individual cover crop species, and chap. about aspects of cover cropping.
