Day Trading - dummies

Day trading works by capitalizing on short-term price movements in a stock through the active buying and selling of shares. Day traders seek volatility in the market. Without short term price movement (volatility) there is no opportunity. The more a stock moves, the more profit a trader can make or lose in a single trade.

Day Trading for Dummies (6 Tips Every Beginner Should Know)

What Is Day Trading? Day traders are different from investors in that day traders hold their securities for only one day. They close out their positions at the end of every day and then start all over again the next day. By contrast, swing traders hold securities for days and sometimes even months, and investors sometimes hold for years.

What Is Day Trading? - dummies
