People have never been more broadly aware of design as a concept, or as something that fits into their everyday lives. Even the simplest of consumer products compete to offer something that will better catch the public's eye and reflect the taste and perceived lifestyle of each individual. Like all design, car design is complex subject. It's one in which many people have an interest--and not just gearheads. Every part of a car represents myriad decisions by the design team ruled by engineering, aesthetics, human interface, and emotion. Speed Read: Car Design helps the reader to understand the hows and whys of that design process, offering an engaging review of history, theory, key concepts, and key designers. It's a book for car enthusiasts, design fans, and anyone with a desire to better understand why our wheeled world looks the way it does.

Published for more than 50 years, this annual covers the year's main motoring events, from Formula One to the latest styling studies and concept cars, and takes an overview of the period it has chronicled. Famous photographers look back and select their favourite images from more than five decades of racing.

Daniel Radcliffe is the story of Daniel Jacob Radcliffe, (born July 23, 1989, Fulham, London, England), British actor best known for his on-screen portrayal of the boy wizard Harry Potter. Radcliffe began acting at age six when he appeared as a monkey in a school play. Two years later Radcliffe appeared in the film *The Tailor of Panama* (2001). His big break came when he was cast in the film adaptation of J.K.Rowling's *Harry Potter and the Sorcerer's Stone* (2001). Urban life and mobility have been greatly affected by globalization and postmodernization. This international collection of essays investigates a number of significant issues in urban research, including urban governance, city branding and commodification, urban fears and safety, and the conservation of the urban ecosystem. Also explored are the changing lifestyles in the urban environment, the increasing importance of tourism in the economy of metropolitan areas, and the interdependence of tourism, cultural heritage and local communities. The volume offers a range of case studies exploring New York, Orlando, Paris, Barcelona, Lisbon, Venice and the imitations of the latter in Boston, Los Angeles, Las Vegas, and various Chinese towns. A specific section is devoted to other Italian cities, such as Rome, Florence, Naples, and Turin. It also provides an appendix detailing the "success story" of tourism degree programmes in European universities. The book is dedicated to the memory of Guido Martinotti, a leading Italian scholar widely known for his seminal contributions to urban sociology.
