Toyota Chassis and Body Manual 1975 to 1980 - FJ40 BJ40 FJ45 FJ55 This repair manual has been prepared to provide information covering general service repair for the chassis and body of the TOYOTA LAND CRUISER. Applicable Models: FJ40, 43, 45, 55 series BJ40, 43 series HJ45 series

This manual provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.

The first Land Cruiser appeared at about the same time as the Land-Rover. Styling changes occurred in 1952 with the modern range designated F25s and F28s. The FJ43 appeared in the mid-1960s, the 40 and 45 Series in Australia in 1967/8. The FJ55 was introduced in 1969, the 43 series continued to be made in Japan and the 40 and 45 Series had improvements made throughout the 1970s.

Production of the FJ55 ceased in 1980 to be followed by the Series 60. This was only available with an in-line, six-cylinder engine of 3980cc. A generous five-seater, and good load carrier, there were few changes made to it after production commenced. This is a book of contemporary road & comparison tests, new model introductions, technical & specification data, driving impressions, of road tests, long-term reports, buying second hand. Models covered include:- FWD Pick-up, Station Wagon, LX, De Luxe, Diesel.

The papers presented here, written by experts from all parts of the globe, describe efforts that represent a revolutionary moment in the treatment of schizophrenia disorders as, with caution, we begin to shift the standard of treatment toward early intervention and prevention. Contributions are organised according to the early course of psychosis. The book is of critical importance to anyone interested in psychotic disorders and the revolutionary impact that the field of early detection and intervention is having on traditional conceptualisations of psychotic illness.
