With information for both the novice and seasoned penny stock trader, this book makes a fine addition to any investor's library.

“A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence.” —Michelle Alexander, author of *The New Jim Crow* *Invisible No More* is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women’s experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

This workbook offers a variety of activities to suit different learning styles. Activities such as modeling and mapping allow students to visualize and understand biological processes. New activities focus on reading and developing graphs and basic skills.

In 1656, a Maryland planter tortured and killed an enslaved man named Antonio, an Angolan who refused to work in the fields. Three hundred years later, Simon P. Owens battled soul-deadening technologies as well as the fiction of “race” that divided him from his co-workers in a Detroit auto-assembly plant. Separated by time and space, Antonio and Owens nevertheless shared a distinct kind of political vulnerability; they lacked rights and opportunities in societies that accorded marked privileges to people labeled “white.” An American creation myth posits that these two black men were the victims of “racial” discrimination, a primal prejudice that the United States has haltingly but gradually repudiated over the course of many generations. In *A Dreadful Deceit*, award-winning historian Jacqueline Jones traces the lives of Antonio, Owens, and four other African Americans to illustrate the strange history of “race” in America. In truth, Jones shows, race does not exist, and the very factors that we think of as determining it— a person’s heritage or skin color—are mere pretexts for the brutalization of powerless people by the powerful. Jones shows that for decades, southern planters did not even bother to justify slavery by invoking the concept of race; only in the late eighteenth century did whites begin to rationalize the exploitation and marginalization of blacks through notions of “racial” difference. Indeed, race amounted to a political strategy calculated to defend overt forms of discrimination, as revealed in the stories of Boston King, a fugitive in Revolutionary South Carolina; Eleanor Eldridge, a savvy but ill-starred businesswoman in antebellum Providence, Rhode Island; Richard W. White, a Union veteran and Republican politician in post-Civil War Savannah; and William Holtzclaw, founder of an industrial school for blacks in Mississippi, where many whites opposed black schooling of any kind. These stories expose the fluid, contingent, and contradictory idea of race, and the disastrous effects it has had, both in the past and in our own supposedly post-racial society. Expansive, visionary, and provocative, *A Dreadful Deceit* explodes the pernicious fiction that has shaped four centuries of American history.
