"Using the example of the aircraft industry, which takes him like an arrow to the heart of many of the key conflicts in French life between 1936 and 1948, Herrick Chapman has written a penetrating and exceptionally well documented account of the way that France developed her present style of industrial relations, in which the state plays such a central role. No book I know so successfully integrates the history of aviation . . . with the political and social history of France. Both thorough and thoughtful, it is an impressive achievement."--Robert Wohl, University of California, Los Angeles "An unusual, innovative book based on impressive research that throws new light in a major way on twentieth-century French politics and society . . . one of the most interesting and original monographs in modern French history in a long time."--Robert O. Paxton, Columbia University "This is a breakthrough of considerable importance. [Chapman] will become the leading North American, perhaps even English-speaking, historian of contemporary France."--George Ross, Brandeis University

Andre Castelot was a French writer born in Belgium who wrote 65 biographies of famous persons in the History of France. He is perhaps best known for his biography of Josephine. His biography of Napoleon emphasizes not only his military campaigns, but his many love affairs and his many mistresses. It shows how his tumultuous relationship with Josephine influenced and affected his Napoleonic Code. It was because of Josephine's fickleness and unfaithfulness to Napoleon that Napoleon decreed that all women upon leaving their father's houses and entering into matrimony must understand that henceforth they are to be under the control of their husbands. Women cannot be trusted to be free, said Napoleon. Yet, Napoleon was easily influenced by women. On page 299 is recounted an incident where his Governor of Berlin had committed an act of treason, and had been arrested and faced death. Then, the man's wife, who was expecting a child, came and threw herself at the feet of Napoleon, begging forgiveness. With that, Napoleon ordered the man's release, something that Napoleon did not often do. Throughout this book, there are discussions of Napoleon's relationships with women, including his fears that he could not father a child or that a child who had been born was not really his."

From fashion sketches of smartly dressed Shanghai dandies in the 1920s, to multipanel drawings of refugee urbanites during the war against Japan, to panoramic pictures of anti-American propaganda rallies in the early 1950s, the polymorphic cartoon-style art known as manhua helped define China's modern experience. Manhua Modernity offers a richly illustrated, deeply contextualized analysis of these illustrations across the lively pages of popular pictorial magazines that entertained, informed, and mobilized a nation through a half century of political and cultural transformation. In this compelling media history, John Crespi argues that manhua must be understood in the context of the pictorial magazines that hosted them, and in turn these magazines must be seen as important mediators of the modern urban experience. Even as times changed—from interwar-era consumerism to war-time mobilization to Mao-style propaganda—the art form adapted to stay on the cutting edge of both politics and style.

From Sister Wives and Big Love to The Book of Mormon on Broadway, Mormons and Mormonism are pervasive throughout American popular media. In Latter-day Screens, Brenda R. Weber argues that mediated Mormonism contests and reconfigures collective notions of gender, sexuality, race, spirituality, capitalism, justice, and individualism. Focusing on Mormonism as both a meme and an analytic, Weber analyzes a wide range of contemporary media produced by those within and those outside of the mainstream and fundamentalist Mormon churches, from reality television to feature films, from blogs to YouTube videos, and from novels to memoirs by people who struggle to find agency and personhood in the shadow of the church's teachings. The broad archive of mediated Mormonism contains socially conservative values, often expressed through neoliberal strategies tied to egalitarianism, meritocracy, and self-actualization, but it also offers a passionate voice of contrast on behalf of plurality and inclusion. In this, mediated Mormonism and the conversations on social justice that it fosters create the pathway toward an inclusive, feminist-friendly, and queer-positive future for a broader culture that uses Mormonism as a gauge to calibrate its own values.

Set against the cultural and political backdrop of interwar Europe and the Americas, Poetry in Pieces is the first major study of the Peruvian poet César Vallejo (1892-1938) to appear in English in more than thirty years. Vallejo lived and wrote in two distinct settings—Peru and Paris—which were continually crisscrossed by new developments in aesthetics, politics, and practices of everyday life; his poetry and prose therefore need to be read in connection with modernity in all its forms and spaces. Michelle Clayton combines close readings of Vallejo's writings with cultural, historical, and theoretical analysis, connecting Vallejo—and Latin American poetry—to the broader panorama of international modernism and the avant-garde, and to writers and artists such as Rainer Maria Rilke, James Joyce, Georges Bataille, and Charlie Chaplin. Poetry in Pieces sheds new light on one of the key figures in twentieth-century Latin American literature, while exploring ways of rethinking the parameters of international lyric modernity.

Accounts of rape, murder, mutilation, and torture run like a bloodred thread through modernist literature in the German language. Previous accounts of German literary modernism have linked its fascination with violent destruction either to the militant avant-garde on the left or to fascist modernism on the right. Critics have noted that high modernists depicted violence through its impact on their own victimized protagonists. But by minimizing and ignoring the often disturbing attraction to aggression in the works of Franz Kafka and others, these prevalent readings have filtered out much of the provocative and productive potential of German modernism. Kai Evers's Violent Modernists: The Aesthetics of Destruction in Twentieth-Century German Literature develops a new understanding of German modernism that moves beyond the oversimplified dichotomy of an avant-garde prone to aggression on the one hand and a modernism opposed to violence on the other. Analyzing works by Robert Musil, Franz Kafka, Karl Kraus, Walter Benjamin, Elias Canetti, and others, Evers argues that these authors are among the most innovative thinkers on violence and its impact on contemporary concepts of the self, history, and society.

Friedman and McNeill draw on recent research in evolutionary game theory and behavioral economics to explore the relationship between our moral codes and our market systems. They show how imbalance between morals and markets is at the root of the recent corporate scandals in the US as well as the global financial crisis the world continues to face.
