Curriculum guides are structured documents that delineate the philosophy, goals, objectives, learning experiences, instructional resources, and assessments that comprise a specific educational program.. These K-12 Curriculum Guides (CG) are structured based on the K-12 Basic Education Program.

~~K-12 Curriculum Guides (CG) Compilation—Teach Pinas~~

In Residential Plumbing, students gain a solid understanding of the tools, terms, and techniques found in the plumbing industry. After a thorough orientation to safety standards and procedures as well as the Student Residential Plumbing Center, students put together and take apart a lavatory faucet.

~~Residential Plumbing Module : DEPCO, LLC—Curriculum~~

A burst pipe or a similar plumbing emergency can do a lot of damage to your property. As a rule, the quicker you can get the water turned off, the less extensive the damage will be. Make a note of where the water shut-off valve is located in your home, and practice turning it off. In some homes, the valve is located in the garage.

~~5 Basic Plumbing Tips Everyone Should Know~~

Penn Foster Career School 's online Plumbing training program consists of eight courses to help you gain the knowledge and skills relevant to becoming a plumber. Plumbing classes will cover how to read blueprints and select and install piping and plumbing fixtures, as well as the basic codes, regulations, and standards that plumbers encounter.

"The New Plumbing Guide" takes you by the hand and literally teaches you the "how tos" and the "what ifs" in resolving many plumbing emergencies. It simplifies the technical language and gives you an understanding of what the problem is, why it happens, and how to fix it. It also encourages the use of current technology, gives you details on electronically estimating, plumbing, and large construction jobs of all types, and explains the benefits of computerized Bid checks and Bid reviews. Using this new technology enables you to electronically do various kinds of plumbing estimating for any size construction job. The guide gives you the proper answer to "how many required labor hours are needed" for computer estimates; a feature that will improve the accuracy of your Bid checks and Bid reviews. Just add all costs of labor, materials, equipment, fixtures, along with Sub-Contractor costs, including OH & P (overhead and profit), for your overall total job costs. Bottom line, "The New Plumbing Guide" is a must-have book for Contractors, Homeowners, and non-professional do-it-yourself plumbers learning the trade. The book can also be used as management tool for aspiring Small Business Owners who have geared themselves towards any other type of construction business. Institutions of higher learning will also benefit by subsidizing their training curriculum with the "New Plumbing Guide."
