buildings to life and ensuring they perform at their absolute optimum. Incorporating a robust and thorough commissioning process such as ours in a development project is recognised as best practice worldwide.

## **What is Commissioning and**

# Download File PDF Testing And Commissioning

## Testing?

Upon completion of static testing, dynamic testing can be undertaken, this is 'commissioning'. Commissioning is carried out to prove that the systems operate and perform to the design intent and specification. This work is extensive and normally commences by

# Download File PDF Testing And Commissioning

issuing a certificate permitting the installation to be made 'live', i.e. electrical power on.

## **Commissioning v testing - Designing Buildings Wiki**

Testing and commissioning is to be carried out on installations to ensure

# Download File PDF Testing And Commissioning

that they are safe and meet the design requirements. The witnessing of tests on and off site shall be defined by:  
Design specifications - Mechanical and Electrical. Requirements of the validation process. Safety department policy statements. Tender documentation.
